Littlefield-Wyman

Nurseries

NORTH ABINGTON
MASS.

PRICE LIST 1934

Location

Our NURSERY and SHIPPING SHED is located at
227 Centre Avenue, Abington, Mass.
Tel.—Rockland 1200

opposite the N. Y., N. H. & H. Abington Station.

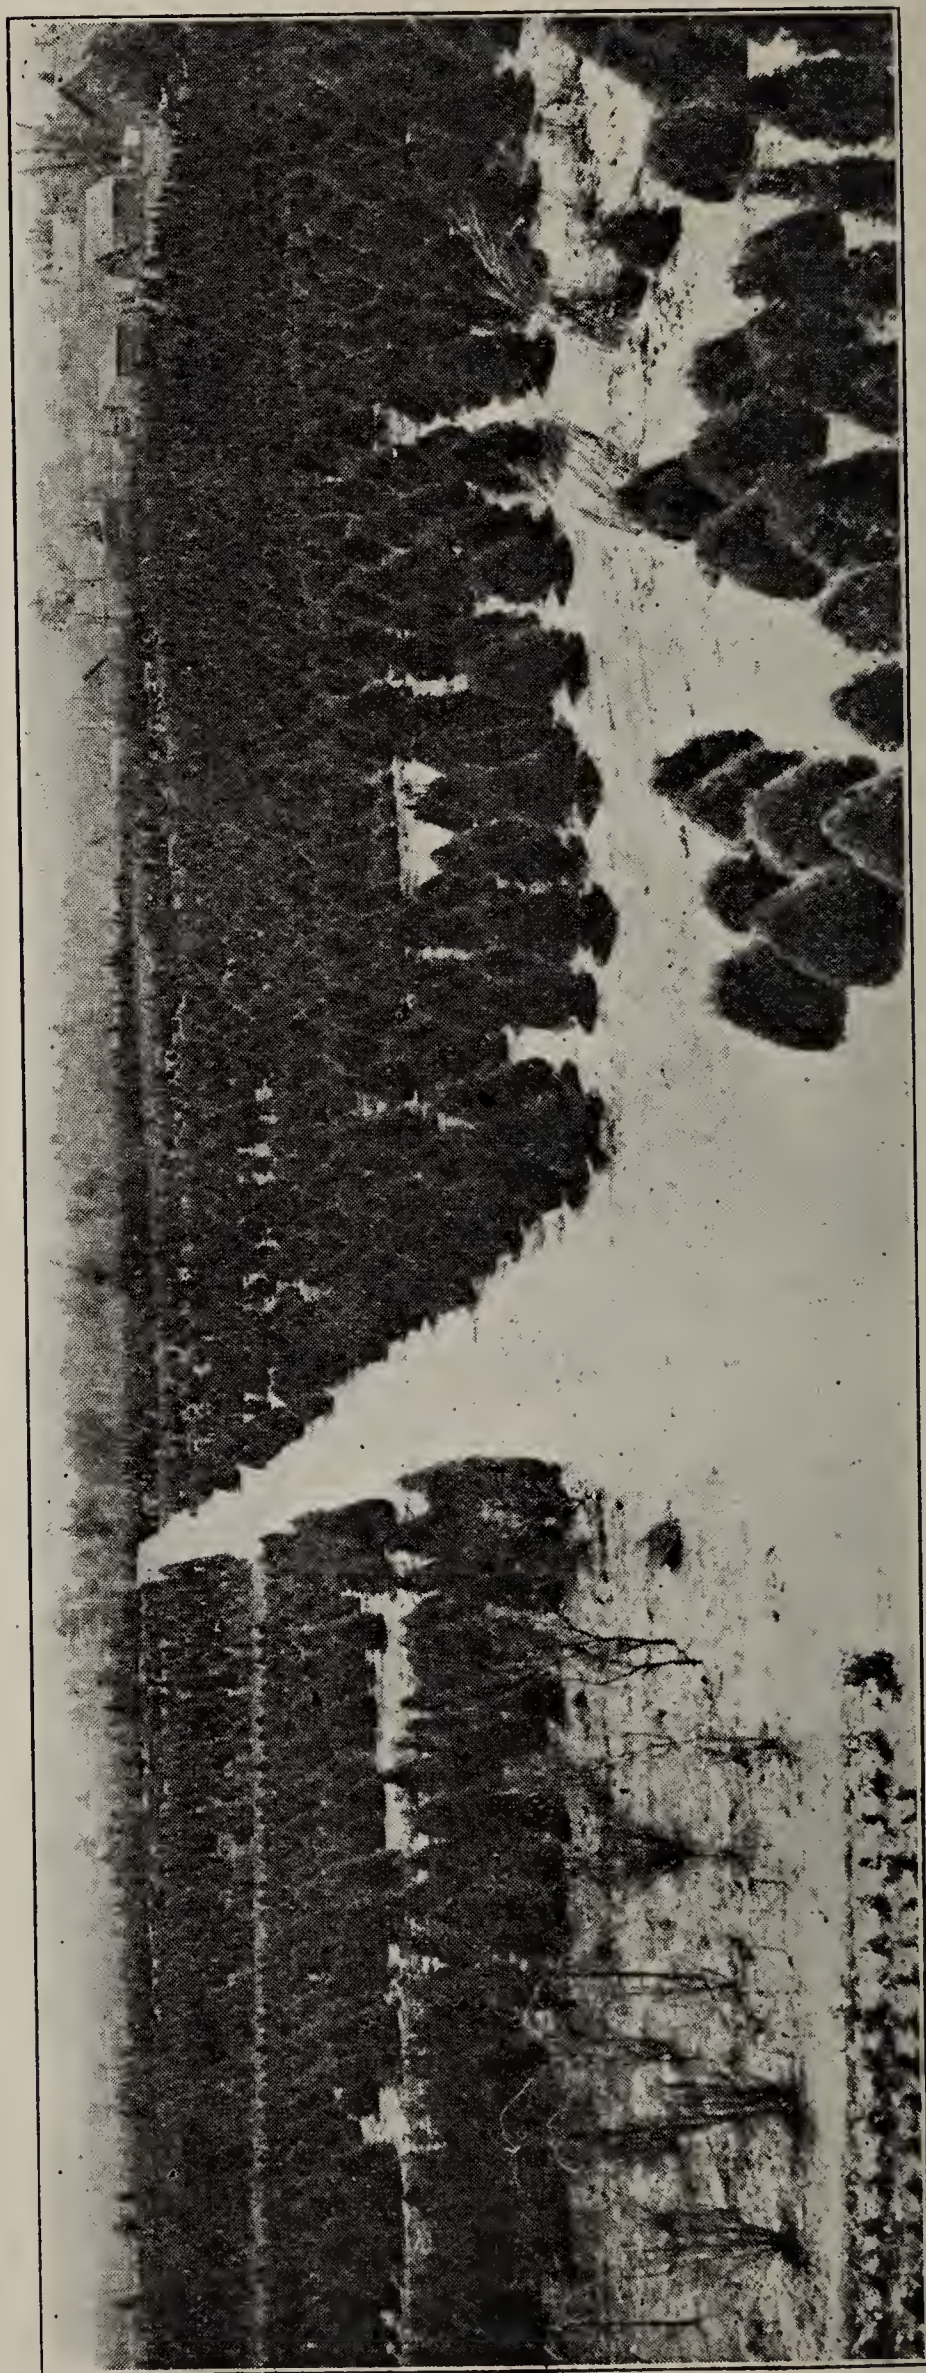

This is on Route 123, and about 150 yards from the junction of Routes 123 and 58, and is one-half mile east on Route 123, from the junction of Routes 18 and 123. There is some one in attendance here from March 25 to December 15.

Our MAIN OFFICE and GREENHOUSES are located at
423 Adams Street, North Abington, Mass.
Tel.—Rockland 1200

This is on Route 58

There is some one in attendance here all the year 'round.

Part of one of our extensive fields of Evergreens

Planting Service

We are well equipped to make Ornamental Plantings, and will gladly prepare plans and estimates or furnish advice relative to residence plantings, the laying out of Hardy and Annual Gardens, Rose Gardens, or the development of an estate. A preliminary conference may be had without charge or obligation within a radius of 30 miles of North Abington.

Terms

Our terms are cash or, upon approval of credit, 30 days net, f.o.b. Abington, unless otherwise arranged.

All prices are subject to change without notice, and to any increase caused through Government Legislation.

Shipping Directions

Please state clearly how you wish your shipment forwarded. All shipments go forward collect, unless previous arrangements have been made. If no route is designated, we will ship as we think best. Damages in transit should be taken up immediately with the carrier, and notification sent to us.

Clean Stock

Our stock is all government inspected, and a certificate of inspection accompanies every shipment.

Conditions of Sale

1. 1 to 4 plants of one variety will be priced at the each rate. 5 to 24 plants of one variety will be priced at the 10 rate. 25 plants or more of one variety will be priced at the hundred rate.

2. There is no charge for packing retail orders.

3. Guaranteed quality.

GUARANTEE

We guarantee (1) That our stock is true to name. (2) That it is vigorous and healthy at time of shipment. (3) That it will successfully survive the transplanting period when planted by us.

Upon proper proof, we will replace any stock planted by customer, not meeting these three tests.

The Littlefield-Wyman Nurseries are not connected in any way, directly or indirectly, with any other nursery. We are the original and only Littlefield-Wyman Nurseries. As we approach our 40th anniversary we are equipped to serve our customers more completely than ever before in quality, service and price. We have over 1,600 varieties to choose from. Visitors are welcome at all times, but no business is transacted on Sundays.

Evergreen Trees

GROWING fine evergreens has always been our specialty. Frequent transplanting, systematic scientific shearing, and careful fertilizing have produced broad compact specimens which must be seen to be fully appreciated.

We earnestly invite your inspection. Courteous attendants will gladly show them to you at any time. Of course, you are under absolutely no obligation.

	Each	Per 10	Per 100
ABIES concolor			White Fir
18 to 24 in.....	\$2.70	\$24.00	
2 to 2½ ft.....	3.60	33.00

Rhododendrons

The Carolinianum, Catawbiense, and Maximum varieties offered below are all NURSERY GROWN healthy plants. As light "leggy" plants are never satisfactory, we list only heavy specimen clumps.

RHODODENDRON carolinianum Carolina Rhododendron

A splendid variety, growing to 6 ft. and profusely covered with pink to deep rose blossoms in May.

12 to 15 in. Heavy Clumps	1.50	12.00	
15 to 18 in. Heavy Clumps	2.00	18.00	
18 to 24 in. Heavy Clumps	2.75	25.00

3 to 3½ ft. Heavy Clumps	5.00	45.00	420.00
3½ to 4 ft. Heavy Clumps	7.50	66.00	

COLLECTED RHODODENDRONS

Through our collector, we can furnish the Native Carolinianum, Catawbiense and Maximum varieties in collected plants, at approximately 50% of the price of Nursery Grown. Write, giving sizes and quantities wanted, and we will make special quotations.

HYBRID RHODODENDRONS

(Seedlings)

Our Hybrid Rhododendrons are fine bushy plants. These plants are grown from seed, and are offered in mixed colors only, containing such shades as Red, Rose, Pink and Lavender. Generally speaking, Hybrid Rhododendrons blossom more profusely than the native varieties.

12 to 15 in.	1.80	16.20	150.00

AZALEAS

Our Azaleas are all NURSERY GROWN. Frequent transplanting and careful pruning produce masses of fibrous roots and heavy tops which cannot be compared with collected stock, so frequently offered at bargain prices.

Azaleas will be balled and burlapped (B&B) without extra charge.

ENKIANTHUS

This is a very fine shrub which grows ultimately to about 8 ft. The pinkish striped flowers are like large lilies-of-the-valley, and hang in clusters. The foliage turns to brilliant shades of pink, red, orange, and all sorts of intermediate shades. Grows best in sour soil.

12 to 15 in.....	.30	2.70	
15 to 18 in.....	.40	3.60	

Five or more plants at price of 10 rate; 25 or more at 100 rate.

Hardy Perennials

As the best effects are usually obtained by planting Perennials in groups of not less than three, we are offering them in that quantity, rather than singly. If only one plant is desired, the price will be one-third the rate for three.

Please note that five or more plants will be priced at the ten rate, and twenty-five or more at the one hundred rate.

Varieties marked with an asterisk (*) are especially adapted for the Rock Garden.

Sun-God			
A new introduction, offered this year for the first time. In color it is pure golden yellow, absolutely free from markings of any kind, with prominent golden yellow center. The gorgeous flowers, almost 4 inches across, are produced on rigid, wiry, clean-cut stems, often 2 feet or more in height. Flowers freely from late June and intermittently throughout the season.....	2.25	6.60

PHLOX

In our collection of Phlox, we have tried to include only good hardy proven varieties. Two years ago we started eliminating, for it had been our experience that many catalogues were selling the same variety under several different names. Now we are offering our customers a choice assortment in various colors—true to name.

PANICULATA	Garden Phlox		
Annie Cook—Flesh pink . .	.90	2.40	18.00
Atlas—Salmon pink75	1.50	12.00
B. Comte—Dark red	1.05	3.00	24.00
Baron Von Hockburg— Brilliant red, better than Beacon	1.05	3.00	24.00
Blue Hill—This phlox is the nearest to a blue of any we have seen	1.05	3.00	
Commander-in-Chief—New beautiful crimson-red with darker eye. Color does not bleach or fade. . .	1.05	3.00

Sarah Van Fleet—New variety of medium rose-pink	1.00	9.00
Sir Thomas Lipton — Double white.....	.75	6.00

Suggestive controls for Plant Diseases of Ornamentals.

BORDEAUX MIXTURE

4 pounds copper sulphate crystals
4 pounds store lime
50 gallons water

FUNGICIDES

Disinfecting and protective fungicides serve two distinct purposes. A disinfecting spray is used as a dormant and summer spray to destroy the spores of fungi which cause disease, and which may be lodged on the bark or about the buds of deciduous trees and shrubs. Lime-Sulphur solution diluted 1-9 is the most commonly used dormant disinfecting spray. Some sprays and dusts prevent infection by depositing a protective coating poisonous to fungous spores on the plant surfaces. Lime-Sulphur 1-49. Bordeaux mixture, sulphur dusts and wettable sulphur sprays are the most generally known and used protective sprays.
The following recommendations cannot be expected to yield 100 per cent control of disease, as this is rarely accomplished. However, if the measures recommended are followed, reasonable control should be obtained.

Five or more plants at price of 10 rate; 25 or more at 100 rate.

Host	Diseases	Control	How used	When
Almond (Flow'g)	Brown rot of leaves & twigs	Bordeaux	4-4-50	Spring and early summer
Ampelopsi.	Leaf Spot	Bordeaux	4-4-50	Thruout season at 10-day intervals

Mountain Ash	Rust	Alternate host Juniper. Separation of hosts only known control. Lime-sulf. 1-49 in spr. might help		

L
ET
MOTHER NATURE
AID YOUR GARDENER

Application — new seeding; work in about one-third of a bag (20 lbs.) which is a light application for rich soils, and double this quantity as a heavy application for poor soils, to each 150 sq. ft. As a top-dressing on gardens and lawns, one bag to about 400 sq. ft. Spade in about a trowel full around bushy perennials, roses, lillies, chrysanthemums and shrubs.

THE DESIRABLE LAWN AND GARDEN TOP DRESSING AND SOIL CONDITIONER

The need for a high-grade, sterile, odorless, ready-to-use, dehydrated cow manure combined with a sterile, high test source of organic media contributing active humus to soils, brought about the development of DRICONURE—ready-to-use turf and garden dressing, which is made of materials of the best quality.

The ingredients are just manure from high protein fed cows and quality peat moss functioning as a humus making material, and a reservoir for soil moisture. The composition is about thirty-five parts of peat moss and sixty-five parts cow feces—no straw, shavings, or trash. It analyzes almost equivalent to a 2-1-2 fertilizer, embodying the desirable properties of humus.

This product represents our idea of a real plant food and soil conditioner—not merely a stimulant. We urge you to try it. You will soon conclude it is just the tonic your lawn and garden soil needs—correcting over-fed, under-nourished, or worn-out soil troubles.
